

IT'S EXCITING LIGHTING!

ENERGY SAVING DECORATIVE LEDS

12 Volt Chandelier Torpedo Shaped Candelabra Screw Based E12 LED

Low Voltage Energy Saving

**Up to 90% Energy Savings over Incandescent Lamps
Long Life of more than 30,000 hours
Increased Safety, with No glass that can shatter
Reduced Re-lamping & Labor Costs
Shock and Vibration Proof
Lower Operating Temperature**

SPECIFICATIONS:

- Volts: 12 V AC/DC
- MOL: 4 inches
- Watts: 4 Watts
- Working Environment: -40 to 55

This is a low voltage LED version of a standard Chandelier Bulb.

Will operate on voltages from 12 volts AC or DC

It uses only 4 watts of power and is comparable up to a 60 Watt incandescent.

Used in landscape lighting, or any low voltage application.

LED offers long life and low power consumption.
